TYPE F70A®
PIPE BORE RAMS

DESIGN/APPLICATION:
• Designed and intended for Drilling Production and Well Control operations.
• May be used in mud, gas, oil and sour gas service

KEY FEATURES:
• Easily recognizable based on the popular design by Shaffer/NOV.
• Designed for our Type F70A Ram BOP
• 100% interchangeable with Shaffer/NOV Type 70 Ram Blocks
• 100% compatible with Shaffer/NOV LWS/SL BOP’s
• Packers easy to service and replace in the field
• Packers usually in stock at our facility, and readily available from multiple aftermarket vendors

SPECS:
• API 16A 4th Ed. T-75/250 classification
• Elastomers available for high temperature, or standard 40°F - 180°F
• Monogrammable to API 16A

A Type F70A ram block set is depicted in the above rendering without packers, ram holders, or retracting screws. Customers have the choice of API conforming elastomers or Aftermarket elastomers. Ask your sales representative for more information.
